

overnight pallet distribution

The Way Forward in Freight Logistics.
THE WAY FORWARD IN FREIGHT LOGISTICS.

the pallet-track network

the pallet-track network

The Pallet-Track service portfolio is extensive and highly competitive, offering our customers a choice of service options. With greater demands being placed on independent road haulage operators to provide quality services at home and abroad for their customers, Pallet-Track can provide a flexible link to cater for every delivery requirement.

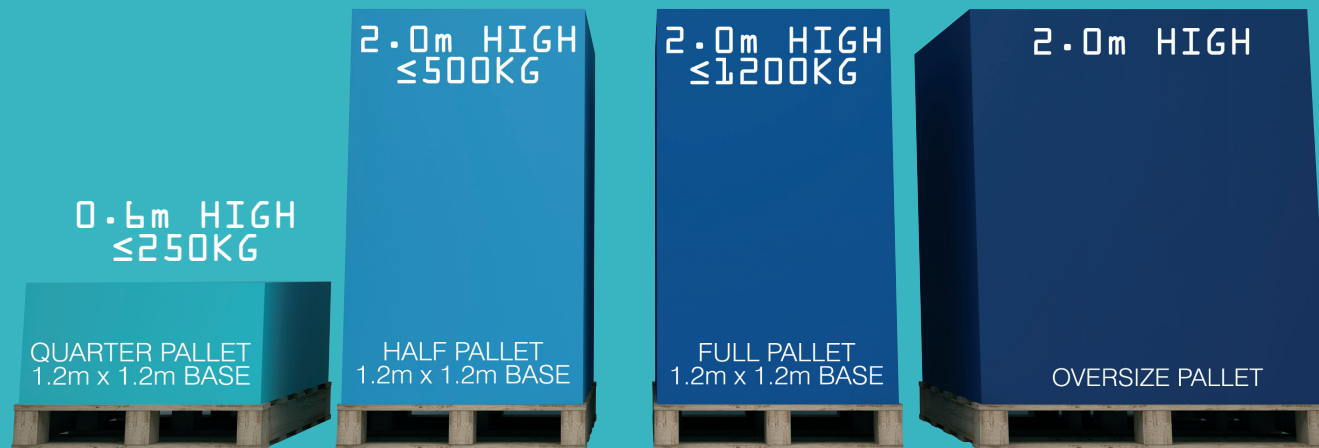

From our modern and impressive Titan Distribution Centre, Pallet-Track members are able to offer an unparalleled level of service. Through investment in people, information technology, and state-of-the-art materials handling, our network enjoys a fully structured service that is second to none in our industry.

Our operation is equipped to cater to our rapidly increasing volumes of palletised freight, all of which is electronically scanned and tracked.

online & tracking

Part of our network success is the continual investment in cutting-edge technology, and both our online tracking system and proof-of-delivery solution keep us one step ahead of our competitors.

We can provide total transparency throughout the system, with full track and trace from collection through to delivery. The whole process provides our customers with complete confidence, knowing their shipment is being tracked and monitored every step of the way.

Our data capture system records delivery details and allows electronic signatures to be taken at the point of delivery.

The online portal gives users the ability to enter consignments directly into our depot system and access real-time delivery information.

web-based customer portal

- ✓ Allows local entry of consignment data
- ✓ View consignment information
- ✓ View Track & Trace
- ✓ View online proof-of-delivery
- ✓ View scanned customer paperwork
